

fuma // CHANNEL - DRAINAGE CHANNELS STABILO-FIX
 Stainless steel 1.4301/304, with 304 longitudinal mesh grating

Item-no.	DLS ... -VA
Product group	Drainage channels
Inlet width	100 / 140 / 160 mm
Height	40 / 50 / 60 / 80 / 100 mm
Length	100 cm (standard) Channel bodies can be manufactured as single parts / individual lengths up to 300 cm.
Thickness	1.5 mm
Material Body	Stainless steel 1.4301/304
Material Cover/Grate	Stainless steel 1.4301/304 with 304 longitudinal mesh grating 7 x 7 mm
Load class	Accessible, light rolling loads.
Pictures	 <p>The image shows three technical drawings of the drainage channel components. On the left is a long channel body with a longitudinal mesh grating. In the middle is an end piece, which is a small rectangular component with a hole and a flange. On the right is a connector, which is a small rectangular component with a hole and a flange, designed to join two channel bodies.</p>
