

fuma // DEC - DECOUPLING MAT PLATON FLEXI® ORIGINAL
with mesh

Item-no.	Platon Flexi® Original
Application	Decoupling and waterproofing of tiled surfaces
Material	Backing fabric = Polypropylene, white Dimpled sheeting = Polypropylene, yellow Mesh fabric = Polypropylene, green
Measurement	Roll length: 30 m Roll width: 1 m Material height: 3 mm
Installation temperature	5 - 40°C (but limited by tile adhesive specification)
Melting point	160°C
Air gap volume	1.6 litre/m ²
Filling volume of the dimple	1.2 litre/m ²
Crack bridging	2 mm
Adhesive tensile strength	0.2 N/mm ²
Appropriate for underfloor heating	yes
Waterproof	yes
Product Properties	Resistant to chemicals, rotting, fungi and bacteria, exceptional tensile adhesion
Stress classifications	Robinson test: extra heavy
Temperature resistant	-40°C to +80°C
Other Properties	Store in a dry place, away from sunlight
